

Country

*Ultra dull mélange polyester
100% eco-friendly*

colours & yarns for weaving

Starting from an ultra dull polymer, a range of yarns with mélange effects and natural look to satisfy all the most demanding needs in terms of colour, paying particular attention to the care of our environment.

From a range of basic colours always available, we can reproduce any custom mélange effect with quick delivery and minimum quantities suitable for any use.

Designed for the furnishing industry, but proved to be suitable and interesting for the apparel end use too, **COUNTRY** preserves all the typical advantages of polyester: excellent dimensional stability to washing, drying speed, resistance to aging, stains and creases to name a few.

COUNTRY 730

With a count of **730 DTEX**, these yarns have a mélange effect made by two different colours, to create endless chromatic combinations.
Minimum mélange quantity: **40 kg**.

COUNTRY PLUS

A range of yarns with different mélange effects, made by mixing, depending on the count, three to six different colours:

3 ends of different colours = **COUNTRY PLUS DTEX 1000** - Minimum quantity: **60 kg**.

4 ends of different colours = **COUNTRY PLUS DTEX 1400** - Minimum quantity: **80 kg**.

5 ends of different colours = **COUNTRY PLUS DTEX 1800** - Minimum quantity: **100 kg**.

6 ends of different colours = **COUNTRY PLUS DTEX 2100** - Minimum quantity: **120 kg**.

MAXI COUNTRY

You create your own **COUNTRY PLUS 1000 DTEX** and we then provide you with a yarn with a final count from 3.000 to 9.000 dtex having the same mélange effect of the **COUNTRY PLUS** you created.

100% POLYESTER
100% ECOFRIENDLY

COUNTRY product range consists of dope dyed 100% polyester yarns: this means significant savings on the front of water consumption and on the consequent necessary water cleaning processes.

It is also available from recycled polymer.
